Expected Result:

User should be able to change card name as many times as he needs.

Screenshot/Video:

Before change name: <https://prnt.sc/qfaggt>

After change name: <https://prnt.sc/qfajv8>

Priority:

High

Environment:

Google Chrome version 78.0.3904.108

Firefox Browser version 71.0

Safari version 13.0.3 (15608.3.10.1.4)

Microsoft Edge version 80.0.352.0 (Official build) Canary (64-bit)

OS: macOS Catalina version 10.15.1

Bug 29

Bug Number: 29

Bug Title:

When updating profile there should be a limitation on characters in first name, last name and email field.

Bug Description:

When updating profile information, there should be a limitation for number of characters in first name last name and email field. That limitation exists in registration form.

Steps to reproduce:

1. Navigate to "<https://auction-webapp.herokuapp.com/shop/products/5/50>"
2. Click on 'My account' button
3. On dropdown menu click "Profile"
4. Populate field 'First name'
5. Populate field 'Last name'
6. Populate field 'Email'

Test Data:

4. 'First name = 123456578910....1000' (Use Number Generator from "<https://numbergenerator.org/numberlist-1-1000>")
5. 'Last name = 123456578910....1000'
6. 'Email = 123456578910....1000'

Actual Result:

In fields first name, last name and email can be entered more than 100 characters.

Expected Result:

There should be restriction that user can not enter more than 100 characters.
